

HEALTH PRODUCTS

Our offer

(only for French companies)

A comprehensive solution for your company with a wide range of products:

- General third party liability, product liability, errors & omissions
- Directors and officers liability

Policies adapted to your needs.

Reactivity

The expertise of the doctors and insurance professionals at BiomedicInsure allows us:

- To understand your profession immediately
- To assess your products and/or services
- To produce a pertinent and developed report to the carrier
- To help you to defend efficiently your interests in the event of a claim

Know-how

20 years of experience and a perfect understanding of your field.

An analysis based on an exclusive assessment of the benefit/risk of your products or services:

- Scientific risk assessment of each product, validated by the client
- Assessment of your provision of services

This allows you:

- To offer premiums adapted to the risk
- To sustain coverage

Clients

16 years of service in every sector:

- Pharmaceutical companies,
- Medical device companies
- Life science biotechnology companies,
- Service providers in the life sciences industry (C.R.O., etc...)
